WiseFresh® Montmorillonite Desiccant

 Premium quality natural montmorillonite with constant physical and chemical characteristics

 Higher moisture absorption capacity than silica gel in low humidity

 Premium quality packaging material, maintaining breathability and dust-free

 Raw materials are natural, non-toxic, and environmentally friendly

MONTMORILLONITE DESICCANT

Montmorillonite desiccant utilize natural montmorillonite as raw material. Montmorillonite has stable chemical and physical characteristics and is non-toxic and non-hazardous. Its moisture absorption capacity is stronger than silica gel desiccant in low humidity. This is a natural and safe desiccant with premium quality. Therefore, it is widely applied in food that needs to keep dry and fresh. (Tea, dried vegetables, fruits, spices, puffed food, etc.)
