

Technical Data Specification Sheet

7.5 Pound Activated Aluminium Oxide

Product 7.5 Pound Activated Aluminium Oxide

Product Code 0AADR001A

Raw Material 3~5mm Aluminium Oxide

Packaging Material Plastic Drum

Technical Standard	Items		Standard
	Moisture adsorption capacity 25°C	RH=60%	
RH=90%			≥30%

STD Packaging — 7.5 pound/drum, 6 drums/carton
 Carton Size: 540*275*325mm, 24cartons/pallet
 —Carton label contains the following:
 PO Number
 Product Name
 Specification
 Quantity
 Batch Number

Storage Shelf life: 2 years
 Desiccant must always be kept in airtight containers to avoid moisture.

Notes The data given here is based on current knowledge and experience. This document is designed to describe the products in terms of their safety requirements. The above details do not imply any guarantee concerning composition, properties or performance. User is liable for his own operation.
